SUMMARY OF QUALIFICATIONS

Data and business analytics professional with experience across public-sector operations, financial services, and technology-driven workflows. Skilled in **SQL, Python, Power BI,** and **Excel**, with hands-on experience in dashboard development, reporting automation, data quality, and process improvement. Combines analytical problem-solving with business understanding to transform complex data into actionable insights and measurable operational improvements.

CORE SKILLS

- **Data Analysis & Reporting**: SQL, Python, Excel (PivotTables, Power Query, VBA); data cleaning, reconciliation, statistical analysis, and trend reporting.
- **Business Intelligence & Automation**: Power BI (DAX, RLS), KPI dashboards, data visualization, and reporting automation using Python and JavaScript.
- **Business Analysis & Process Improvement**: Requirements gathering, workflow analysis, quality assurance, stakeholder collaboration, and process improvement.

PROFESSIONAL EXPERIENCE

Program Administrative Support Clerk — Mar 2026 – Present

Government of Ontario — Ministry of the Solicitor General

- Maintain and analyze Excel-based operational trackers, reports, forms and records to support institutional information flow, business planning and management decision-making for stakeholders.
- Review operational information for accuracy, completeness and consistency. Identify discrepancies, data-quality issues and process gaps, and communicate findings to stakeholders.
- Prepare, format, retrieve and update reports, correspondence, records and process documentation using Microsoft 365 tools while applying confidentiality, records management and audit trail requirements.

Quality Control Associate — Jul 2025 – Mar 2026

Clutch Technologies Inc.

- Designed and implemented a JavaScript reporting automation tool for the vehicle QC workflow, reducing report-generation time from 15 minutes to 3 minutes (80%) and making reports more consistent and easier to review.
- Collaborated with cross-functional teams on dashboard use and process improvement; maintained Google Sheets documentation and monthly analytical summaries with pivot tables.

Power BI Developer Intern — Sep 2024 – Dec 2024

Eagle Software Technologies Ltd.

- Developed 5 Power BI dashboards and DAX measures to support financial analysis, performance monitoring and faster management review.
- Automated daily reconciliation/data-cleaning processes using Python, reducing effort by 30% and cutting error rates by approximately 50% with documented logic.
- Implemented row-level security and delivered weekly reporting summaries to support process improvements and faster management turnaround.

Data Analyst Intern — May 2024 – Aug 2024

Weihai Bank

- Conducted quantitative analysis of 10,000+ daily financial transactions using SQL/Excel to identify patterns, risks and reporting issues for fraud-risk detection and risk profiling.
- Built Power BI/MySQL heatmap dashboards and cleaned 1.2M+ MySQL records, improving data integrity, reporting reliability and analysis readiness.
- Shared monthly analysis and recommendations with management to support reporting and process improvements.

EDUCATION

Master of Business Analytics and Artificial Intelligence - MBAI — Sep 2026 – Dec 2027 Expected

Ontario Tech University | Oshawa, ON

Honours Bachelor of Science - Mathematics Major; Statistics Minor — Sep 2021 – Jun 2025

University of Toronto | Toronto, ON
